

TELL ME Baby Jail 1989 (Text: Boni Koller)

She put a gun to my head and then she said
This is what's up mate
You're my captive now and I'll shoot you down
If you don't cooperate
You can save your life if you count to five
So take a good look at me
You have got no time to search for rhymes
There's just one melody

Tell me that you love me baby do
This is all I want from you
Tell me that you love me baby please
Love me please or lie to me at least

She had her finger on the trigger and her mouth became
bigger
And her eyes were icy blue
I was frightened to death when I saw the bed
Where she was pointing to
My whole life was passing by
while she undid my tie
When I started to pray I heard her say
Oh I don't want you to die

Tell me that you love me baby do
This is all I want from you
Tell me that you love me baby please
Love me please or lie to me at least
